5 – The objectives of the programme

Are to enable students:

to develop ideas independently out of experience, critical reflection and contextual awareness and to transfer them into works of art

to make informed decisions about the application of techniques and technologies in the execution of their ideas

to recognise making and thinking in the context of contemporary fine art and its historical development

to reflect critically upon the own work and that of others

to present their work to a wider public and to reflect upon it verbally

to contextualise the making and the development of strategies in the making itself, in a discursive sharing of the work and in writing about it

to understand research as an essential part of the artistic process.
